ICE THRONE IN AN ICE CAVE IN ICELAND

Dear Expectant Mother,

Thank you FOR TAKING THE TIME TO GET TO KNOW ME!

I have known my entire life that I wanted to be a mom. I wake up and fall asleep every day with a dream of raising a child. After being diagnosed with infertility, I considered fertility treatments. But after much reflection and soul-searching, I realized my dream isn't to create life or experience pregnancy (beautiful as it is). **My dream is simply to be a parent - to raise a child, experience all of the ups and downs that come with it, shower them with love, and provide them with the best life I can give them.** It was in that moment that I knew adoption is what was in my heart and the path to motherhood for me.

I would be honored to share my life and world with your child. I would also be delighted to have a relationship with you and am open to sharing pictures, letters, and visits with you should that be something you desire as well.

I've waited a lifetime for this moment and cannot wait for my dream of becoming a mom to come true. After reading through my profile book, I hope you will feel reassured and able to find comfort in knowing that our child will be raised with unconditional love and supported with all of my heart. **Thank you for considering me to parent your child. I am truly grateful for you.**

– Stand up paddle boarding, snorkeling, tide pooling, going to the aquarium, whale watching, swimming, even just sitting on the beach watching the waves crash on the shore or walking along picking up shells and playing in the water. **The water is my happy place.**

TRAVELING

– Traveling has helped me learn a lot about myself and who I am as a person. I spent three summers backpacking all around Europe before I moved to Spain. I lived there for two years and taught 6-12th grade science at an International School in Madrid. I've been to the World Cup Final in Germany, ziplined in Costa Rica, swum in the bioluminescent waters of Puerto Rico, and celebrated my 40th birthday on a beach in Mexico.

In addition to big, international travels, I also enjoy day trips to the aquarium, weekend trips to the mountains, **Disneyland**, extended weekends to Colorado, Hawaii, or a national park. **I love visiting places I've read about and learned about in school.**

SPORTS

– I grew up playing sports and while I tried everything from basketball to soccer, I fell in love with softball. I played all the way through high school and coached for a number of years. I even started a league for middle school girls when I lived and taught in Colorado. While I don't play or coach anymore, I still enjoy watching and going to games. Football, Hockey, and Baseball are my favorites. The Oakland A's fireworks games are my favorite to go to.

I ALSO LOVE SNOWBOARDING

HOME sweet HOME

MY BACK YARD

Several years ago, I was lucky enough to purchase my own home. It has three bedrooms, two bathrooms, and an incredible backyard! I spend a lot of time outside whether it be enjoying my morning coffee and reading emails or grilling dinner and sitting around the firepit relaxing after a long day. **The yard is a child's dream! There's plenty of space to kick a ball, play a game of tag, or have an overnight backyard camping experience.** I cannot wait to enjoy the outdoors with my future child.

My home is located right around the corner from the local elementary school, the large community park, and less than a mile from the community center with an indoor water park!

HALLOWEEN FUN - MARIONETTE COSTUME

The neighborhood is extremely diverse and full of friendly neighbors and children. My street throws a neighborhood 4th of July Block Party and Halloween party every October. It's a very close knit community and I cannot think of a better neighborhood to raise a family!

ABOUT MY WORK: I am a teacher and have a Master's degree in Education. **As such, education is extremely important to me and I will ensure your child is given the best education inside and outside of the classroom.** After many years teaching science, I now work in the district office where I teach teachers and help them improve their teaching. While I miss being in the classroom and with kids everyday, I like knowing that my work is making an even bigger impact. I also appreciate being able to work from home and the flexibility in my work schedule as I know this will allow me the to spend more time at home with a child.

MY WORK FAMILY

WE ARE A BUCKEYE FAMILY!

I have two younger brothers and we are all very close in age! To this day, we are three "peas in a pod." We all live relatively close to one another and frequently gather at my parents' house. Whether it be stopping by on our way home from work to see what Mom cooked for dinner or a holiday gathering, it's rare that more than a week goes by that we aren't all together.

In addition to my family, I have a fantastic and diverse group of friends. I've been fortunate enough to find dear friends at all stages of my life, in every place I've lived. They have been with me during all the bends in the road and will be part of my "village" in raising a child.

FAMILY TRADITION Every Christmas Eve, we go to church, have dinner (seafood), and then open two presents - pajamas and an ornament that reminds us of something special for the year.

My VILLAGE

I am surrounded by the most loving and supportive group of family and friends. I couldn't ask for better village! Both of my parents have inspired me to be loving, strong, independent, and thoughtful of others. Because of them, I know I will be an amazing parent who is just as loving, caring, and supportive. I will also give your child every opportunity possible, just like my parents did for me. They can't wait to be grandparents!

My PROMISE

TO YOU & YOUR CHILD
