

CARLOS + MAGDALENA

Dear Mama

Everything in life happens for a reason, and we believe it happens to help us to grow, find the right path, and become the people we are meant to be. We believe our paths are crossing for a reason too and the decisions we make will ultimately lead all of us to the right place and a good life!

Your brave decision to consider adoption is a precious gift to so many people! First and foremost, it is a gift to your child. But it also is a gift to people like us, who can't have own children, yet more than anything want to surround a little one with love and provide them with opportunities to have a beautiful life.

We are deeply impressed by your strength and courage, and proud of you choosing life for your child! We admire your heart filled with love for your baby and your decision to give the baby a chance for a great life! Probably we will never fully understand what you are going through, but we have great respect for your decision and will make sure that your child always knows about your brave sacrifice.

Adoption can be terrifying and overwhelming, but we want to be in this process with you! So, thank you for taking the time to look through our profile book and for considering us as a part of this journey!

*With love,
Carlos and Mag*

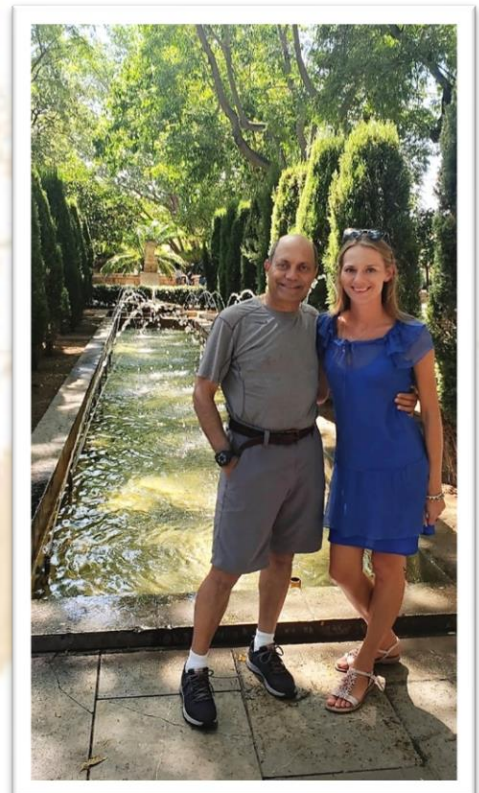

OUR LOVE STORY

Living on two different continents, ever busy with our professional careers and not really looking for a relationship we met on a business trip in Europe back in 2015. As unbelievable as it may seem, from day one both of us felt we could build something special together! It took some efforts and sacrifices along with countless hours of conversations about life! But the more we got to know one another, the more we felt we were made for each other.

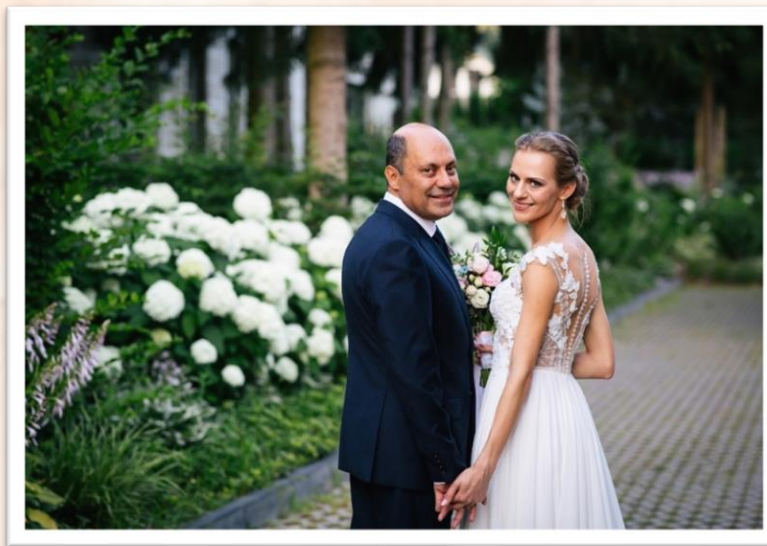

Our long-distance relationship brought us so much joy as we created fond memories from our weekends all over Europe. It also helped us get to know each other better and led us to realize we should spend the rest of our lives together.

After two years Mag moved to the U.S., and we got married the following year.

OUR WEDDING

We probably won't say anything different from other happily married couples. The wedding day really is one of the best days in life! Actually, our wedding was even better than we could ever ask for! Surrounded by joy and love of our family and closest friends, we celebrated the beginning of our journey as a husband and wife.

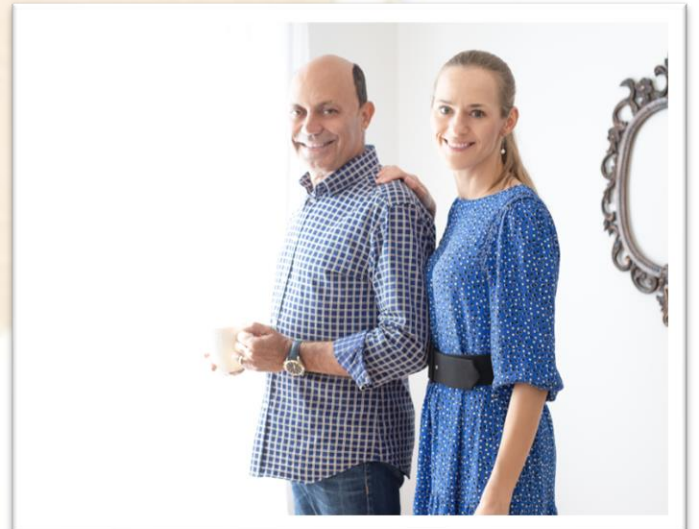

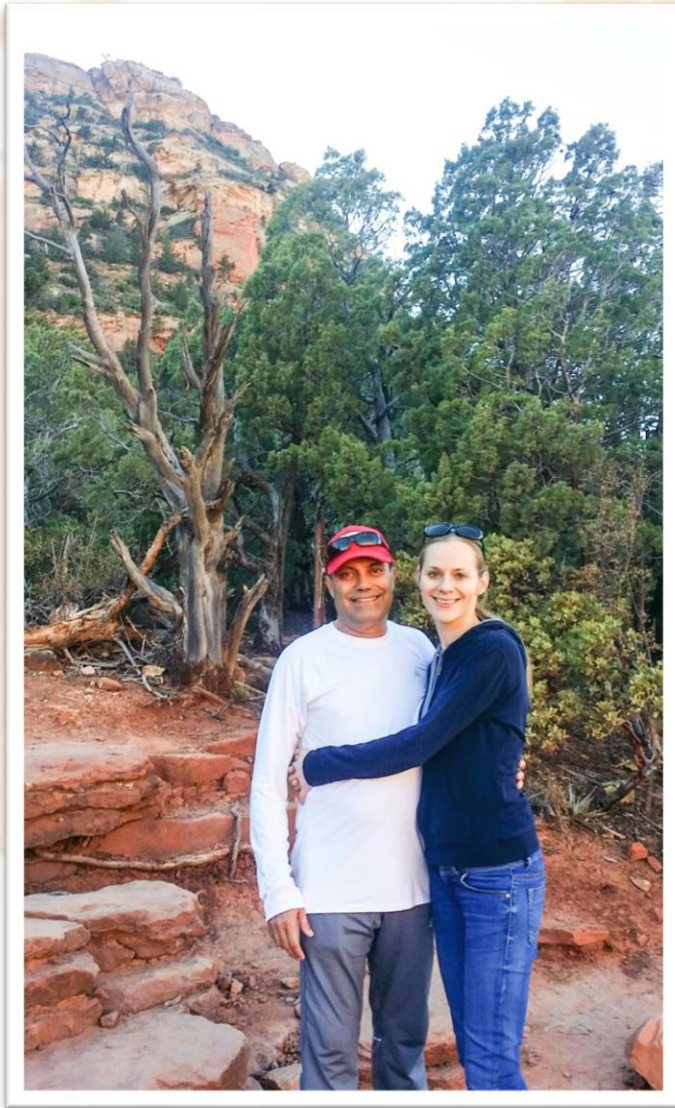

OUR LIFE TOGETHER

Five years into the marriage, we still get amazed how lucky we were to find each other! We share so many interests and complete each other in the areas where we are different.

We love outdoor activities, watersports, hiking, biking in the summer and skiing in the winter. But we also like spending time together at home, doing little projects, cooking, watching movies or just being lazy.

One of our biggest passions is traveling! We enjoy small and big travels equally: from day trips to a lakeside or nearby national parks to week-long vacations in Mexico, Italy, Portugal, or remote exotic islands. And every time we go on a trip, we realize just how much we'd want to take a child to all these places and show the World around!

MY HUSBAND, CARLOS

Carlos is a person with whom you feel safe and stable wherever you go. Given his patience and extraordinary emotional intelligence, he always knows what to say and what to do to make people around feel comfortable, heard, and appreciated. This might be the reason why so many people come to him for his advice, and why he has been very successful as a leader and manager. After gaining experience in the corporate world, he started his own business and currently works as a consultant for international companies.

Carlos is a very optimistic and fun-loving person. He will come and dance with me in the kitchen or joke about his mom and me learning foreign languages together. For him every day is another exciting adventure that brings the opportunity to explore and learn something new. As he loves sports a lot, he goes to the gym often and does his 20-mile bike rides on a weekly basis!

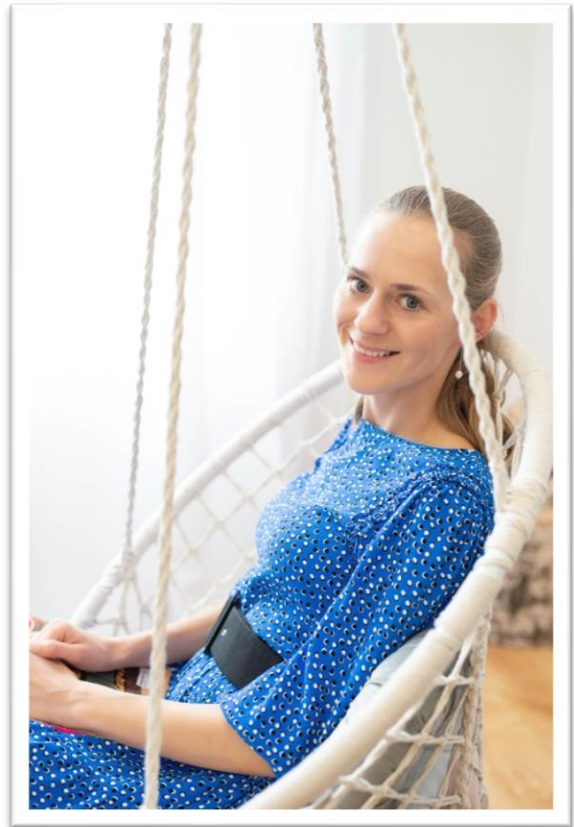

Carlos will be a dad who provides everything a child may need to conquer the world! He will build a safe environment and encourage a child to grow, chase her or his dreams and become the best version of her/himself. I feel very lucky to have him as my husband, and it makes me incredibly happy knowing that a child will have such a remarkable person as a father!

MY WIFE, MAGDALENA

Mag is one of the most vibrant and caring persons you could ever meet! She always gives others the better portion of the food or better seat at a theater. She never rests until she is sure everyone feels comfortable and is well taken care off. Mag is very energetic, friendly, and social. She can talk to anybody and builds meaningful relationships easily.

She is our planner, trips organizer, and history encyclopedia. She also knows almost everything about healthy eating, so she feeds me with her delicious superfood dishes. No matter what she does, she puts her whole self into it. She works together with me in my company.

Being totally honest, from the moment I met her, I knew she was the kind of woman I would love to raise kids with! Given her serving and caring nature, she will thrive as a mother and a child will thrive growing under her protection. All the kids in our family simply love being with her, as she always gives them her full attention and makes sure they feel just how loved they are.

OUR FAMILY

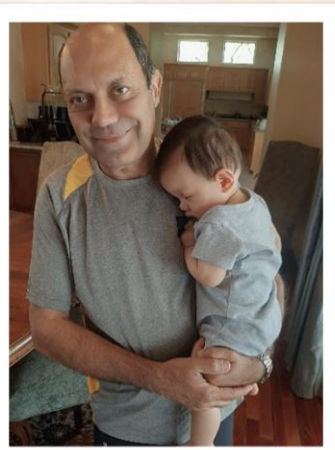

We value family beyond anything! That's why we make sure every holiday, birthday, or any other special occasion is celebrated together with our relatives!

Although Mag's family lives in Poland she is incredibly close to them. Even the time difference doesn't put a string on their relationship! They talk almost every day and meet every few months. When we visit with them, we always enjoy big family gatherings including Mag's Parents, sister along with her family, aunts and uncles, cousins, nieces, and nephews! It is such a blessing to feel their support and unconditional love.

Carlos's family lives in Arizona and in Connecticut, and as they all cherish their Portuguese roots, we love to be part of their traditions! Every Christmas Mag makes cod fish cakes with Carlos's Mom and traditional sweet treats for Easter.

We also cherish travelling with our families. No matter how busy life gets, we make sure we go on an annual vacation with Mag's family from Poland and Carlos's family from the U.S.

Our whole family is truly excited to welcome a new family member! They already love the baby very much and are looking forward to meeting the biggest treasure in our life!

OUR NEIGHBOURHOOD

We live in a charming mid-size town close to one of the most beautiful lakes in the country.

Our neighborhood is peaceful, yet very lively. The infrastructure that it offers for any kind of outdoor activity with kids is beyond dreams! Safe paths for walking and biking, well-equipped playgrounds, recreation center with indoor and outdoor swimming-pools for kids are within walking distance. One of the biggest attractions is a nearby lake where you can fish, kayak, water-ski or even boat and sail. In close proximity to our house there is a beautiful park by the lake. It is the main place where our local community gets together to relax, socialize, barbecue, or celebrate. You can always hear people laughing and watch children playing and having fun there.

Our neighbors and community are truly a valuable support system to us. We have a lot of friends living nearby and we know we can always count on them. On some occasions we pick each other's mail or put the garbage out as well as cook together or watch over their children.

We can't wait to bring a child into this lovely community and our friends with their kids can't wait to have another little one to play with!

OUR HOME

A few years ago, we bought and completely renovated our dream house. It is a spacious, big house full of sun light coming through big windows. There are 4 bedrooms, three and a half bathrooms, and a large, fenced backyard with juicy grass lawn, sandpit and tall trees visited by birds and tiny chipmunks.

We truly enjoy living here and we believe it is a perfect place to raise kids!

OUR PROMISE

Life has blessed with good health, a loving family, and lots of true, supportive friends. We would love to share all the good things that life has given us with a child.

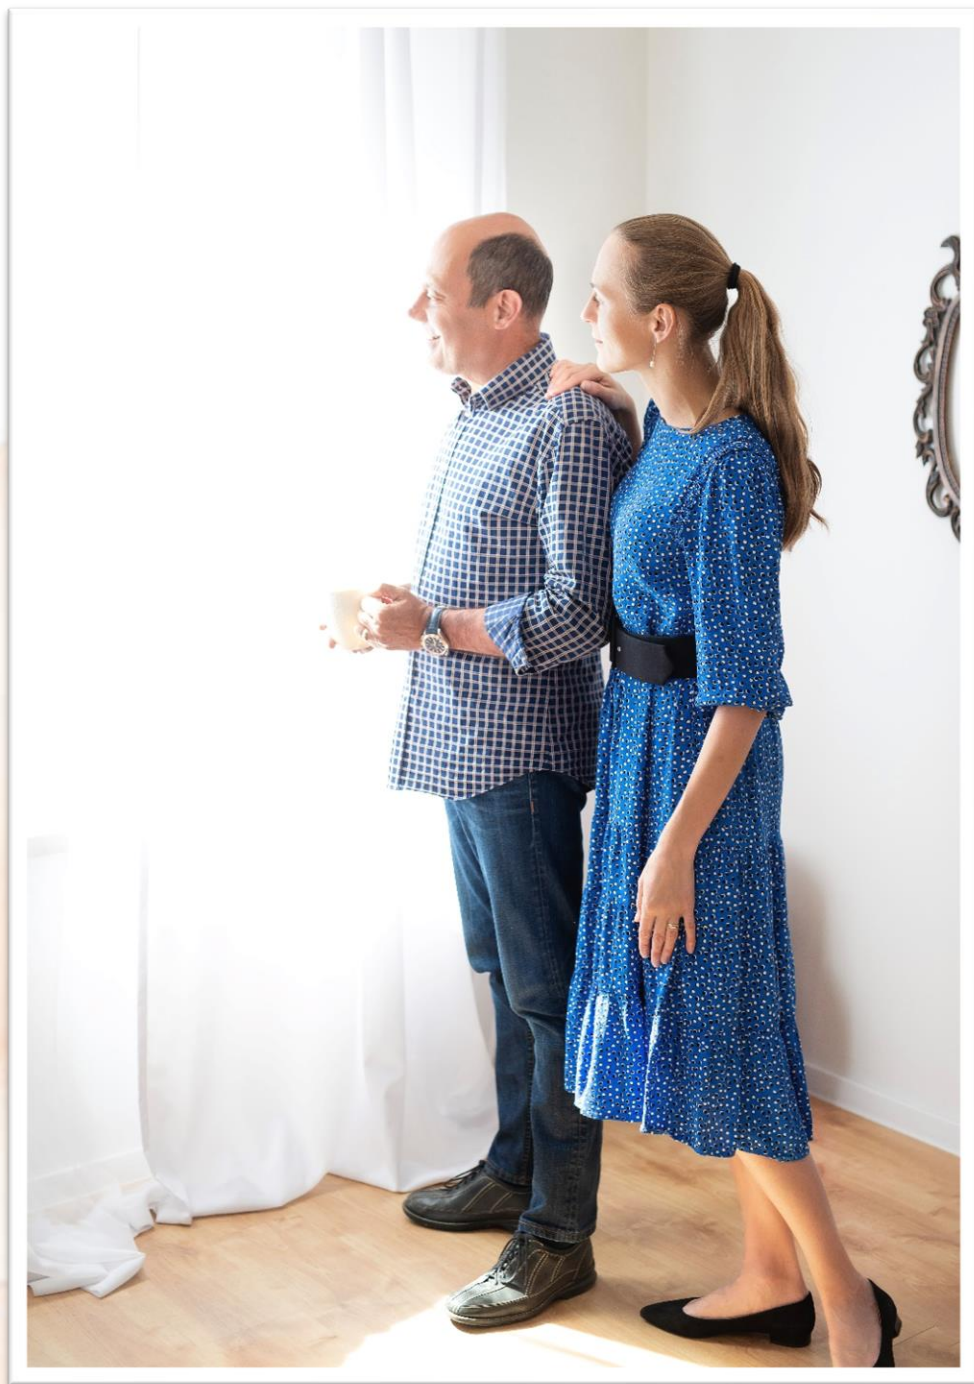

As we can't have our own children, from the beginning of our relationship we knew an adoption would be a way to grow our family. We also have friends who adopted kids in the past and seeing how their amazing family has been growing over the years makes us feel very confident that adoption is a path for us. We would also love to continue expanding our family through another adoption in the future.

We promise to surround a little one with our love and provide them with an opportunity to grow, fulfill their dreams, and find their own path in life.

We want to build a loving home and raise children to be kind, respectful, honest human-beings. We promise to create a strong family unit with an unconditional support.

We value education and want to make sure our children can grow and learn in the most suitable environment. We will be fully involved in their learning and development, by helping them with homework and encouraging them to explore their potential.

We promise to love them forever!

THANK YOU

Thank you so much for taking the time to get to know us a little better. We know that you want to give the very best to your child and find the right family for her or him to grow with. We can only imagine how hard this decision is and feel honored that you would consider us.

We want you to know that we will love your child with all that we are, and we will dedicate our lives to her or his happiness. You will always be a unique building block of that happiness. We promise, your child will always know about your amazing act of love and respect your brave sacrifice. We hope you will be part of our lives in whatever way you feel comfortable with.

Thank you again for considering us! We are so excited to be parents and surround a child with our unconditional love!

Carlos and Mag
