This is us!
Letter to You

Dear Birth mother,

We can understand you are in a challenging moment and we would like to thank you for spending some time to look through our profile. We can only imagine the difficult choices you have made and those yet to come. Deciding on the right actions for yourself and your child is not an easy one and it will take courage and love to guide you. We truly hope for the best for you and your child. As you read through and see a little of who we are and life we hope to share with another child that comes into our home.

With hope and love,

Nick, Trish, and Devin
would

profile.

those

for child

you. We

though

mother
Our names are Nick and Trish. We have a son named Devin and is very much looking forward to being a big brother. We are an eclectic family of goofiness, laughter, and love. We do a lot of things together. We go on bike rides, have family movie nights, we go to the zoo and the local library to check out books. At dinner we spend time talking to each other about our day while we all work together to make it. We also spend time with other members of our immediate family. We can't wait to add another child to all these activities.
We have a

her child.
Our Favorites

We have a love of both outdoor activities.

Nick loves to camp and fishing while Devin enjoys outdoor activities.

Devin loves dinosaurs and they become a large part of our small office interior.

Trish is an avid reader and spends much of her time in our small office interior.

Nick is a tech nerd and spends most of his time online.

We all have a big love for food and we enjoy as much as possible. Our diet is often healthy and we eat a lot of fruits and vegetables.

We have a variety of food at our disposal, which includes fruits, vegetables, and some meat dishes.

We enjoy our time together and enjoy the variety of food that we have available.
We have a love of both the indoors and outdoors.

Nick loves to camp and Trish enjoys fishing while Devin just likes to be outdoors.

Devin loves dinosaurs and they have become a large part of our home.

Trish is an avid reader and converted our small office into a library.

Nick is a tech nerd and works with computers often, mostly fixing them.

We all have a big love of cooking but more importantly eating. No type of food is off limits in our house. The greater the variety, the better.
Our immediate family is small with Nick having a brother (Dan), his mother (Roberta) and father (Rip) and Trish with her mom (Helen). Our extended family gets pretty large with having MANY aunts, uncles, and cousins that live in town. We all spend time with family quite regularly and we are all quite close. Any child coming into this family will be surrounded with plenty of love.
Our Family

My immediate family is small having a brother (Dan), mother (Roberta) and father (Trish with her mom). Our extended family is pretty large with having aunts, uncles, and cousins here in town. We all spend with family quite regularly and are all quite close. Any coming into this family will surrounded with plenty of love.
Friends are chosen family.
We are quite selective when it comes to our friends for they are the best anyone can ask for. If we need help, a phone call is all that is needed and an army of people will be here. They are all brothers and sisters to us and will do whatever they can for our family.
Nick is Electrician and working on circuit boards used in...
Nick is Electronics Technician with a major avionics company and working towards being an engineer. He tests and repairs circuit boards and advance electronic equipment that are used in various applications, most go into space.
Trish's Career

Trish is a talented hairstylist with a degree in Cosmetology. Due to scheduling conflicts she made the decision to become a stay at home mother but plans to return to work and further her thriving career. She also has plans to take on-line classes and obtain another degree and a new career as a librarian.
Our home and neighborhood

Last year we had a house built in a wonderful neighborhood. The things that drew us to this place were how family friendly it was, our neighborhood has a splash pad, 2 swimming pool, disk golf course, an award winning public charter school, and year round family events put on by residents and the HOA. We are also in walking distance of 2 playgrounds and picnic areas.
The most amazing thing about this house built in a neighborhood is the things this place were how friendly it was, our as a splash pad, 2 disk golf course, an public charter school, family events put on and the HOA. We are walking distance of 2 and picnic areas.
Our promise for our baby girl

We promise to teach her who she is and where she comes from. To help her keep her heritage alive within our own family. We promise to surround her with the happiness we feel around each other. We promise to raise her to follow her dreams and know that they are possible. Most importantly we promise that she will always know how loved she is every moment.
Thank you

From a place of utmost sincerity we would like to thank you from the bottom of our hearts for considering our family during this difficult time in your life.
